# Proposition

# 65

## Warning

For California Residents

Information from Nutraceutical Corporation about Proposition 65

Please note that this list may be updated from time to time. For the most current list, please visit our website at [www.nutraceutical.com/notices](http://www.nutraceutical.com/notices).

## Background

In 1986, the State of California adopted Proposition 65, the Safe Drinking Water and Toxic Enforcement Act (Prop 65), which applies not only to water, but also to consumer goods sold in California. The California Office of Environmental Health Hazard Assessment (OEHHA) oversees Prop 65 issues. Prop 65 requires the State of California to publish and maintain a list of chemicals known to the State of California to cause cancer, birth defects or other reproductive harm. The list is updated periodically; the most recent list and other Prop 65 information are available on OEHHA's website:

•<http://www.oehha.ca.gov/prop65.html>

Substances on the list that OEHHA believes cause cancer are called carcinogens; those that OEHHA believes cause birth defects or other reproductive harm are called reproductive toxicants. Currently, there are over seven hundred substances on the list. Substances can be added to or removed from the list by various mechanisms, such as declaration by an authoritative body or by scientific testing.

## Natural Substances

Many of the substances on the list are naturally occurring in the environment or are now present in the environment through increased industrial activity. Some of these substances may accumulate in varying amounts, at different times, in different plants or animals. Natural products—including herbs, vitamins, minerals and other supplements, as well as many natural foods and cosmetics—are produced using ingredients and materials from the natural environment. Because of this, it is possible that some of the substances on the list may from time to time be present in these natural products. In addition, some of the ingredients found in natural products—such as the natural progesterone found in natural progesterone products—are in and of themselves identified as substances on the Prop 65 list.

## Proposition 65 Warning Statement

The following warning statements are required by California law and apply to the products identified in this brochure and/or on our website or labels:

**WARNING:** This product contains a chemical known to the State of California to cause cancer.

**WARNING:** This product contains a chemical known to the State of California to cause birth defects or other reproductive harm.

## Covered Products

Nutraceutical branded products and other products covered by this Prop 65 Warning include:

- **Those products that include a reference to Prop 65 or one of these warnings on their label.**
- **Any products that include the following ingredients: blue cohosh, kelp, progesterone and red yeast. These products include those listed on the back of this brochure.**
- **Additional products identified from time to time at [www.nutraceutical.com/notices](http://www.nutraceutical.com/notices).**
- **All other products sold by Nutraceutical or its subsidiaries, in light of the fact that one or more of the chemicals identified on <http://www.oehha.ca.gov/prop65.html> may be present in such products, whether because it is found in the environment or otherwise.**

Covered products are all products manufactured, distributed or marketed by Nutraceutical Corporation, which currently include those under any of these brands or any sub-brands:
